To Whom It May Concern:

Subject: Authorization letter for local Yemen Based Representative "YEMENOSCO"

Dear Sir,

We hereby authorize YEMENOSCO Oil & Gas services, Address: Haddah Zone Street # 12, next to OMV building 1st Floor, Sana's – Republic of Yemen. Tel. 00967 1 415180, Fax: 00967 733887218 to represent us in the republic of Yemen for Business Development, Local Approvals & Authorizations, Submission of Tender Bids and Local support Services (Visa for manpower, Accommodation, Food, Local Logistics etc.) required for the project execution team in Republic of Yemen.

This letter of Authorization is valid for one year from the date of issue or until the completion of any projects undertaken along with local representative, which ever is later.

This letter of Authorization is governed by the memorandum of Understanding signed between CHEMIE TECH & YEMENOSCO.

Thanking you & Best Regards

SAMEER BAWA

Preface

Chemie-Tech L.L.C is a professional Industrial solutions provider, offering high quality Engineering, Procurement Construction & Project Management services to Oil & Gas, Petrochemical & Process, Power & Water Industries. The sphere of activity is focused in providing expertise and turnkey solutions to clients throughout Middle East, South Asia, African Continent and North America.

Quality Management, Occupational Health and Safety Management & Environment Management is integral part of all services provided by us. Chemie-Tech is an **ISO 9001, ISO 14001 & OHSAS 18001** Certified company.

The Group commenced its operation in India in 1997 under the name Chemie-Tech Projects Ltd. to render Engineering Services to Petroleum Sector & Small scale Industrial Projects. After successfully accomplishing more than 25 projects in India, the Group entered into Middle East market as Chemie-Tech LLC in 2003.

Chemie-Tech is driven to meet high quality standards...delivering quality projects on time and in budget. Chemie-Tech believes that the best recipe for success is honesty & integrity...mixed with large dose of commitment and hard work. Chemie-Tech strongly believes that the success of any project depends ultimately on Clients Satisfaction. With an unwavering commitment to Client Satisfaction ...Chemie-Tech pledges to “Do the Job Right”...Every Time!

Optimized Engineering Solution- Cost Effective Procurement- In Budget & Quality Construction

Vision, Mission, Aim & Values

Vision

TO BE FOREMOST ENGINEERING, CONSTRUCTION & PROJECT
MANAGEMENT SERVICE PROVIDER

MISSION

ENGINEER THE INDUSTRIAL GROWTH FOR SUSTAINABLE SOCIETY

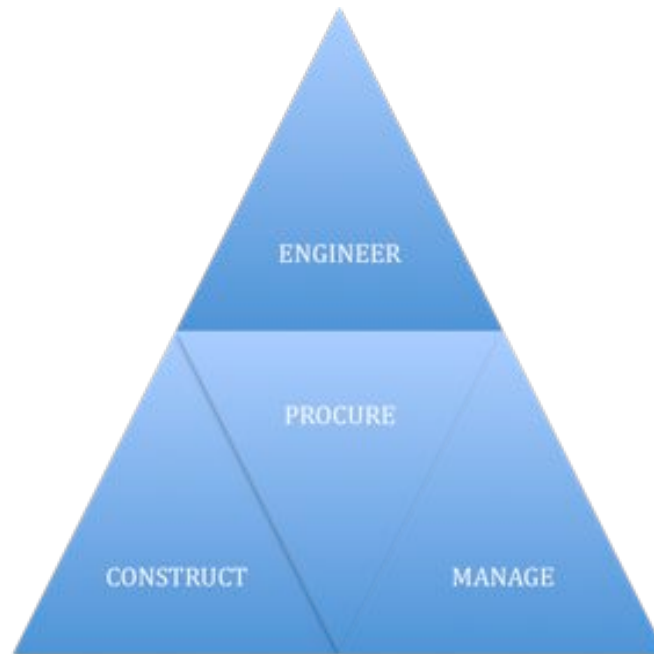

AIM

TO BE VALUED HIGHLY BY OUR CLIENTS, EMPLOYEES, VENDORS
& SOCIETY

OUR VALUES

What we do

Our Services

Industries Served

Oil & Gas

Petrochemical & Process

Power & Water

Our Expertise

Capabilities

Chemie-Tech offerings encompasses design, construction, project management, Commissioning, operations & maintenance support of customized international standards compliant Industrial Projects.

Chemie-Tech has in house capabilities & expertise to provide full project cycle solutions to Oil & Gas sector, from Technology Selection to complex Front End Engineering design, Construction, Installation & Commissioning. For our clients this means a single interface throughout the Construction life of the facilities, significantly reducing the risks, costs & time involved when dealing with multiple vendors.

Although Oil & Gas sector is our major focus, Chemie-Tech also has EPC Skills, partnerships & local expertise to provide innovative solutions to Petrochemical & Process, Power & Water Sector.

Our Strength is Optimized Design & Engineering, Cost Effective Global Resources for Procurement, Just in Time Delivery at Project Site, local experience, in Budget & Quality Construction know how.

Single Window Solutions

CONCEPT TO COMMISSIONING TO OPERATIONS

Chemie-Tech incorporates systems approach that considers total project requirements. Application is only part of an evaluation. We include client's current & future requirements. We view the system maintenance as an inherent component of the total facility.

Client's requirement, Installed Cost, Operational Cost & Energy goals are optimized to achieve true value to the Project.

We strive to be seamless extension of our client's office, to meet their goals.

ENGINEER-Optimized Solutions

Chemie-Tech Group's India office an ISO 9001 certified company provides Engineering Solution to our Clients. Chemie-Tech guarantees cost effective Design & Engineering Solution to our clients. We take pride in our local knowledge in the countries we operate & our commitment to Client, Local & International Standards.

Design & Engineering teams provide multi-discipline project engineering services for grass-root projects as well as up-gradation. These services include

Design- FEED & Basic Engineering

Feasibility Studies
Process & Utility Evaluation/
Selection
Technology Licensor Liaison
HAZOP Studies
Troubleshooting/ Optimization
Job Cost Estimating
Debottlenecking

Services

Engineering Services are totally Client dependent, with single objective of providing true project value engineering to client, based on optimum & innovative solutions.

Engineering Disciplines:

OUTSOURCING

Chemie-Tech's Engineering Resources are available for outsourcing. Depending on client's requirement, we can place dedicated qualified professionals support group at our facility in India.

We have flexibility to support projects of any size, from short-term assignments to comprehensive Design, Detailed & CAD Services for complex engineering projects.

SOFTWARE EXPERTISE

We have Short term/ Long Term Lease Agreements for specialized Software's.

PROCUREMENT-Global Resources & Just in Time

Chemie-Tech Group's Global procurement resources enable us to provide our client with cost effective & Quality Sourcing of materials & equipments Solution.

Chemie-Tech Procurement Engineers & Team are fully conversant with all aspects of compliance with engineering requirement, freight forwarding, custom duty requirement, duty exemption procedures & local road transportation. We have fully functional procurement team in India, United Arab Emirates & Canada.

We have expediting and quality assurance teams in all countries we operate.

Just in Time delivery of material & equipments is the Goal of our Procurement Team.

CONSTRUCT- Quality. Time. Budget

Chemie-Tech has over 10 Years experience in Construction Industry, with extensive track record in executing projects to quality, to schedule & within budget.

Chemie-Tech provides expertise in all facets of construction. Our construction management teams are highly experienced in construction of new facilities & expansion of exiting facilities. Chemie-Tech has the ability to manage & execute multi-discipline construction services for projects.

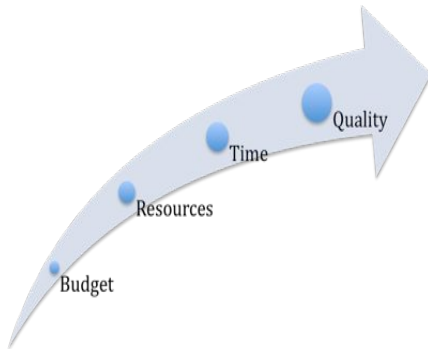

1. **Civil & Structural:** Area Grading, Civil Construction. Ring wall / Sand Pad Foundations, Structural Construction.
2. **Storage Tank Construction:** Our construction methodology for large capacity storage tanks is BOTTOM UP by Jacking up the tanks. We also construct Storage Tanks by Conventional Method. Storage Tank Design Code: API 650, API 620, IS 803. Type of Storage Tanks: Cone Roof, Floating Roof (Internal & External), Geodesic Dome Roof, Open Top, Underground Horizontal tanks, Spheres & Bullets.
3. **Piping:** Piping network, Loading/Unloading Network (Tanker Loading Arms, Marine Loading Arms), Fire Water Network.
4. **Onshore Cross Country Pipelines**
5. **Heavy Equipment Erection**
6. **Utilities**
7. **Pump: Loading, Unloading & Transfer Pumps**
8. **Blasting, Painting & Coating**
9. **Electrification**
10. **Instrumentation, Control & Automation**
11. **Fire Protection & Gas detection System**

MANAGE-Time & Resources

Chemie-Tech project management team ensures effective & timely implementation of projects through detail assessment of work, meticulous planning, micro level scheduling & dynamic monitoring.

PM Software's are used for planning & analysis.

Project management team's goal is to control Time & Resource's without compromising on the Quality & Safety.

Project Structure & Roles

1. Steering Committee: Management

Define Objectives, plan funds, allocate resources, review progress, and resolve issues.

2. Project Team: Key Managers

Prepare achievable Plan, Define & initiate Project organization, processes, procedures & create necessary infrastructure.

3. Implementation Team: Key Work team

Participate & implement Planned day-to-day activities of construction.

Assets

At the core of our experience, expertise, knowledge & ability as a company lies our biggest asset: **Our People**.

We operate in Middle East, South Asia, North America & Africa, with a family approach.

Our workforce as on date stands at over 1500 employees in 10 countries. We have the capability to source cost effective & efficient workforce to cater to mid-size & large construction projects.

RIGHT TALENT-RIGHT JOB-RIGHT TIME- is the plan employed by our human resources department to ensure development of existing employees & attracting new talent & expertise required.

We offer Solutions to clients with our:

- Technically Sound Management
- Flexible & Solution driven Managers
- Experienced Project management Teams
- Extensive experience in Design & Engineering
- Skilled & Motivated Engineers & Constructors

Our Management Teams Average Work Experience

Our People

Note: Apart from around 700 people on our pay roll we are managing more than 1500 people at different work sites presently. These are labor contract personnel's, whom we deploy depending on workload.

We have access to vast pool of qualified & dedicated workforce from India, Nepal, Srilanka, and Philippines that can be mobilized to any scale of project. Our HR Team is capable of managing any numbers skilled workforce within a span of 2-3 months.

MANAGEMENT ORGANIZATION CHART

Infrastructure Construction Machinery

Hydraulic Mobile Cranes

- 30 nos. – 10 T to 45 T Capacity

Hydraulic Tank Lifting Jacks

- 1450 nos. – 12 T Capacity

Forklifts

- 10 nos. – 5 T & 7 T Capacity

Auto Girth Tank Welders

- 9 nos. – SAW & EGW

Inverter & Rectifier Welding Machines

- 750 nos. – 400 A & 600 A

Diesel operated Welding Machines

- 39 nos. – 600 A

Plate, Pipe, Structure Bending Machines

- 9 nos. – 6mm to 40 mm

PUG Cutting Machines

- 15 nos. – Auto Gas Cutting

D.G. Sets

- 55 nos. – 130 KVA to 275 KVA

Painting & Blasting Systems

- 20 nos.

Tubular Scaffolding

Projects Experience

Some Major International Contracts Experience

Client: AGAS International, Kingdom of Bahrain

EPC Contract for Infrastructure facility of Pitch Oil Recovery Project

Year: 2003

Client: Pars Petroleum, Iran

EPC Contract for Petroleum oil Terminal Project

Year: 2005-2006

Client: Occidental Mukhaizna, Oman; EPC Contractor: Dodsai

EPC Contract for oil Tanks Project

Year: 2007-2008

Client: Oil-Tech LLC, United Arab Emirates

EPC Contract for 90,000 TPA Waste Oil Recovery Plant

Year: 2007

Client: Alaska International FZE, United Arab Emirates

EPC Contract for Petroleum Storage Terminal Facility

Year: 2007

Client: Arya Petroleum International FZE, United Arab Emirates

EPC Contract for 30000 TPA Petroleum distillation & Storage facilities

Year: 2008

Client: Areej Veg. Oil & Derivatives SAOG, Oman

EPC Contract for Storage Tanks and Fabrication & Erection of Vegetable oil refinery expansion Project

Year: 2006

Client: FAL Oil , United Arab Emirates

EPC Contractor: Nico international Hydrospace, United Arab Emirates

Contract for Storage Tanks Construction in Jabel Ali, UAE

Year: 2008

Client: GPS Chemoil FZE, United Arab Emirates

EPC Contractor: Nico international Hydrospace, United Arab Emirates

Contract for Storage Tanks Construction in Fujairah, UAE

Year: 2008

Client: RAK Lube Oil LLC, United Arab Emirates

EPC Contract Lube oil Storage Facility in Ras Al Khaimah, UAE

Year: 2007

Client: GPS Chemoil LLC FZE, United Arab Emirates

Front End Engineering & Design Engineering Services for 550000 m³ Petroleum Storage Terminal Facility in Fujairah, UAE

Year: 2008

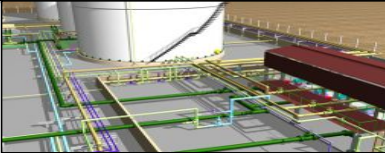

Client: Hood Oil Ltd., Yemen

EPC Contract for 60000 BPD Refinery Offsite & Depot Facilities

Year: 2008

Partial Project Reference List

Sr. No.	Client	Project Location	Project Details	Chemie-Tech Scope	Image
1	AGAS International	Bahrain	2500 MT/Day Capacity Pitch Oil Recovery Plant Includes Process Plant, Process Area Tankages, Dispatch Takages at Jetty with Associated Civil, Structural, Electrification, Instrumentation & Automation	<p>Engineering, Procurement, Construction, Testing and Commissioning of Pitch Oil Recovery Infrastructure Facility with 101,000 M3 storage Capacity. Work Scope</p> <p>Process Site</p> <ul style="list-style-type: none"> • API 650 Storage Tanks total 61,000 M3 • Piping, • Structural Mechanical • Earth Works, Concrete works, Foundations, Roads • Instrumentation, Automation & Telecom • Electrification • Utilities • Pumps • Tanker Loading Arms • Fire Fighting System <p>Jetty Site</p> <ul style="list-style-type: none"> • API 650 Storage Tanks Total 40,000 M3 • Piping, • Structural Mechanical Works, • Civil Construction, • Instrumentation & Electrification • Utilities • Pumps • Fire Fighting System • Custody Transfer Metering System • Tanker & Marine Loading Arms 	  
2	Client: Occidental Muhaizna Main Contractor: Dodsai Pte Ltd	Oman	Oil Exploration with advance Steam Injection Sysyete including Crude Processing Sysytem	<p>Design, Engineering, Procurement, Construction, Testing and Commissioning of Crude Oil & Water Storage Tanks at Occidental Mukhaizna CPFS Project Site.</p> <p>Work Scope</p> <p>API 650 Storage Tanks Total Cap. 160,000 M3</p> <ul style="list-style-type: none"> • Skim Tank • Skim Oil Tank • Produced Water Storage Tank • Boiler Feed Water Tank • Desand Tank • Firewater Tank • Sales Oil Tanks • Diluents Tank • Off-Spec Tank • Stop Oil Tank • Froth Tank • MVC Feed Tank • Disposal Tank • Boiler Feed Water Tank 	 

3	Hoodoil Ltd	Yemen	60,000 BPD Grassroot Refinery with Process Plants, Power Plant, Tankages, Utilities, Dispatch Depot and Associated Facilities Viz. Automation, Instrumentation, Electrification, Civil and Structural Work, Tele-communication Etc.	<p>Engineering, Procurement, Construction, Testing and Commissioning of Offsite and Depot Facilities</p> <p>Refinery Site</p> <ul style="list-style-type: none"> • Topography and Area Grading of Entire Refinery Site • API 650 Storage Tanks total 260,000 M3 • Piping • Structural Mechanical • Earth Works, Concrete works, Foundations, Roads • Instrumentation, Automation & Telecom • Electrification • Pumps • Transfer Piping to Depot with Custody Transfer Meter • Fire Fighting System <p>Jetty Site</p> <ul style="list-style-type: none"> • API 650 Storage Tanks Total 240,000 M3 • Piping, • Structural Mechanical Works, • Civil Construction, • Instrumentation & Electrification • Utilities • Pumps • Fire Fighting System • Custody Transfer Metering System • Tanker Loading Arms 	
4	Pars Petroleum	Iran	100,000 MT Capacity Multi Product Terminal at Jetty for Export of Petroleum Products	<p>Engineering, Procurement, Construction, Testing and Commissioning of Multi Product Petroleum 100,000 MT Capacity storage terminal facility in Bandar Abbas, Iran</p> <p>Work Scope</p> <ul style="list-style-type: none"> • API 650 & 620 Storage Tanks, • Piping, • Structural Mechanical Works, • Civil Construction, • Instrumentation & Electrification • Utilities & Pumps • Fire Fighting System • Tanker & Marine Loading Arms 	 
5	ARYA Petroleum	UAE	100 TPD Capacity Petroleum Distillation Plant including Atmospheric and Vacuum Distillation System	<p>Engineering, Procurement, Construction, Testing and Commissioning of 100 TPD Hydrocarbon Distillation Facility</p> <p>Work Scope</p> <ul style="list-style-type: none"> • Process Vessels • Distillation Columns • Double Pipe Heat Exchangers • Shell & Tube Heat Exchangers • Day Storage Tanks • Piping & Structural Works • Plant Structure • Instrumentation & Automation • Electrification • Utilities • Pumps • Fire Fighting Network 	

6	Alaska International	UAE	50,000 MT Capacity Multi Product Terminal at Jetty for import & Export of Petroleum Products	Engineering, Procurement, Construction, Testing and Commissioning of Multi Product Petroleum 54000 MT Capacity storage terminal facility in Hamriyah Free Zone Work Scope • API 650 Storage Tanks • Structural Mechanical Works	
7	Oman Oil	Oman	Diesel Storage Terminal for New Cement Plant	Engineering, Procurement, Construction, Testing and Commissioning of Diesel storage terminal facility at Oman Work Scope • API 650 Storage Tanks, • Piping, • Structural Mechanical Works, • Instrumentation & Electrification • Pumps • Fire Fighting System • Tanker unloading Gantry	
8	Client : FAL Energy Main Contractor : Nico International	UAE	Multi Product Terminal at Jetty for Import and Export of Petroleum Products	Construction, Testing and Commissioning of Multi Product Petroleum 60000 cbm Capacity storage terminal facility. Work Scope API 650 Storage Tanks ; 8 Nos 4 of which are 30mtr dia X 17mtr ht and 4 of 20mtr dia X 17mtr ht	
9	Chandni oil Canada	Canada	66.000 MTA Capacity Lube Oil Re-refining Plant	Engineerin, Procurement, Construction and Commissioning of Complete Project Includes • Process & Utility Equipments • Storage Tanks, • Piping & Structural Works • Civil Construction, • Instrumentation & Electrification • Pumps • Fire Fighting System • Tanker Loading Gantry	
10	Sitec Brickaville sarl	Madagascar	90,000 LPD Fuel Ethanol Plant from Molasses as Feed	Engineering, Procurement, Construction and Commissioning of Entire Facility Includes: • Process & Utility Equipments • Storage Tanks, • Piping & Structural Works • Civil Construction, • Instrumentation & Electrification • Pumps • Fire Fighting System • Tanker Loading Gantry	
11	Lureco sarl	Madagascar	5000 MTA Capacity Lube Oil Re-refining Plant	Engineerin, Procurement, Construction and Commissioning of Complete Project Includes • Process & Utility Equipments • Storage Tanks, • Piping & Structural Works • Civil Construction, • Instrumentation & Electrification • Pumps • Fire Fighting System • Tanker Loading Gantry

QUALITY & HSE Policy

Chemie-Tech L.L.C.
Engineer, Procure, Construct, Manage

Quality Policy

We, at Chemie-Tech, are committed to achieve
Customer Satisfaction.

Quality Objectives

Chemie-Tech's Quality Objectives are:

1. To complete Projects as in time.
2. To complete projects within cost
3. To ensure completion of project with zero accident
4. To ensure completion of project with zero defect
5. Improve competency level through training and Development.

H. K. Saïyed
Chairman & Managing Director

Chemie-Tech L.L.C.
Engineer, Procure, Construct, Manage

HSE Policy Statement

It is Chemie-Tech's policy to provide and maintain a safe and healthy work environment at all times. The goal of Chemie-Tech management is to prevent occupational accidents, injuries, illnesses or unnecessary environmental damage. These objectives will be achieved by management who shall place accident prevention and the protection of the health and safety of every employee above any other consideration of job operation or administration. The ultimate goal of Chemie-Tech at every level of our organization shall be to ensure at all times, throughout every phase of job operation, the safety and health of our own employees, the Owners'/Clients' personnel's and the personnel's of every subcontractor.

Chemie-Tech shall promote and enforce the development, dissemination, implementation, effectiveness and improvement of its HSE programme. Chemie-Tech shall pursue rigorous and frequent audits to ensure that each partner in the shared responsibilities attains the Company's goal to prevent human suffering, and to limit losses by exemplary leadership in the prevention of accidents, injuries, illness and environmental damage.

The Chemie-Tech HSE policy emphasizes that every employee and official of the company is unreservedly committed to achieving our ultimate HSE target, which is **ZERO ACCIDENTS, ZERO INCIDENTS, MINIMUM POLLUTION AND MINIMUM WASTE.**
